The Group recorded a statutory NPAT of \$8.2 million in FY20 including one-off items aligning the business for future growth (\$7.2 million in FY19). HUB24's platform market share has continued to grow to 1.9% up from 1.3% in June FY19 as the company's innovative solutions continue to resonate with licensees, advisers and brokers.² Given the Group's strong performance the directors have determined a second half fully franked dividend of 3.5cps (up 35% on pcp) to be paid on 16th October 2020.

HUB24's leadership in the growing managed portfolio space has continued, maintaining 1st place for managed accounts functionality for the 4th year running, and this year adding another 108 new managed portfolios to the platform.³ The company also signed 105 new licensee agreements during FY20, and 441 advisers started using the platform an increase of 27.1% pcp.

FY20 has been a successful year for HUB24 even though the COVID-19 pandemic has impacted customers, staff, shareholders, and the community. HUB24 remains in a solid financial position, operating profitably and generating strong operating cash flows. Cash reserves remain significantly above regulatory capital requirements. Whilst net inflows were softer in April, as advisers adjusted to the COVID-19 environment, momentum improved towards the end of the year with the company achieving net inflows of \$4.95 billion for FY20. Given the ongoing opportunities for growth the company remains focused on investing for the future and delivering on strategic objectives.

Commenting on the results HUB24 Managing Director Andrew Alcock said "HUB24 has delivered strong results in FY20 with record annual net inflows of \$4.95 billion, a 60% increase in Group underlying EBITDA to \$24.7 million and a fully franked final dividend of 3.5c per share. We've achieved this in the context of COVID-19 without receiving any government or third-party concessions. Our business is well-positioned for further growth and we would like to thank our customers, team and shareholders for their continued support."

Moving forward HUB24 expects ongoing strong net inflows to the platform, and the company is now targeting a FUA range of \$28-\$32 billion by 30 June 2022.⁴
