## Business Update

Throughout the quarter, the team have been supporting licensees and advisers to meet new regulatory requirements for advice-fee opt-in and the new Design and Distribution Obligations, including the rollout of product enhancements and education. The Xplore integration is progressing well with initial phases now complete. The team are now engaging with key licensees and advisers on the integration strategy, ensuring their businesses and clients are supported through the process and sentiment continues to be positive.

In the FY21 results update released in August, the company outlined investment to support growth and capitalise on market opportunities, including expanding the executive team, hiring additional distribution team members and additional investment in technology resources.
